ICCX ACADEMY BAKU

Data **June, 20th 2019**

Attendees 100+ concrete professionals from precast and readymix plants, government executives

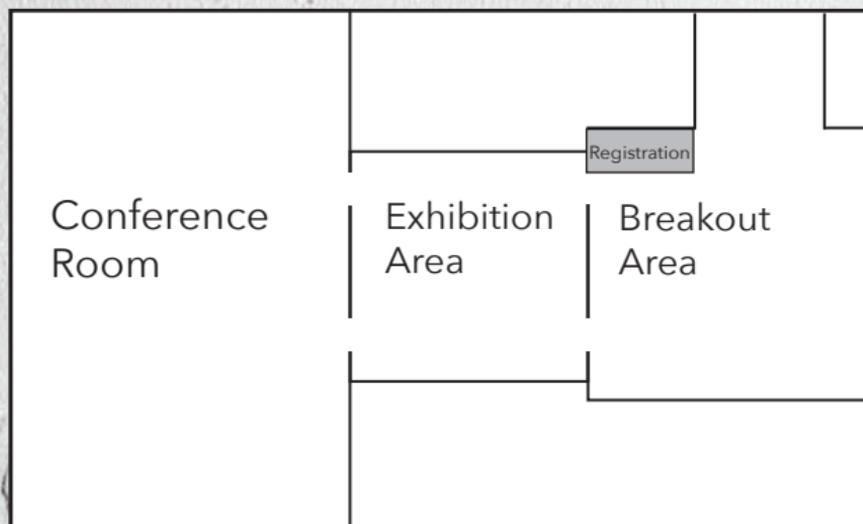

Venue Four Season Hotel Baku
Azerbaijan

Timing **Conference & Exhibition** 09:00 - 18:00
Dinner Event 19:00 - 23:00

The ICCX Academy is a customized conference with a very specific profile. Invited experts as attendance and a small group of industry suppliers take advantage of a meeting that is adapted perfectly on local market requirements and challenges.

The economy of Aserbaidshon is booming since several years, especially the construction industry. The ICCX Academy in Aserbaidshon will present modern concrete and construction trends. One of the main goals is to improve precast awareness for all types of construction, including infrastructure, housing, and urban/suburban environment with landscaping. Trends in modern concrete technology shall give input for long lasting high quality concrete structures for private, industrial and agricultural use.

Floormap
